

Premium Industrial Cleaners

DEGREASERS

Ultra Orange Citrus Degreaser

Ultra Orange is a multipurpose cleaner and degreaser that is safe on nearly all surfaces and is the ideal choice for tough cleaning of polished aluminum. **Ultra Orange** uses real orange-peel solvent to help degrease the toughest soils and leave the area smelling like fresh citrus. Use **Ultra Orange** on countertops, floors, shop equipment, industrial parts, smoke stacks, diesel tanks, or anywhere a tough cleaner is needed. **Ultra Orange** is ideal for the mobile washer and is safe for use in your power washing equipment.

Buckshot Heavy Duty Degreaser 12 Gauge Strength

Buckshot 12 Gauge is a heavy duty degreaser designed to cut film, oil, and grease from industrial parts, chasses, painted surfaces, and is an exceptional general-purpose floor cleaner. This product is not corrosive and is mild to hands. **Buckshot 12 Gauge** is biodegradable and does not contain petroleum solvents.

Buckshot Heavy Duty Degreaser 10 Gauge Strength

Buckshot 10 Gauge is an all-purpose extra-heavy duty degreaser designed to cut both heavy grease and oil on oil-rigs, heavy equipment, engines, forklifts, fifth wheels, or anywhere else heavy oil and grease is found. **Buckshot 10 Gauge** is biodegradable and does not contain petroleum solvents.

Super Duty Degreaser

Super Duty Degreaser is our strongest product designed to strip grease, rust, paint, and carbon from oil-rigs, heavy equipment, forklifts, fifth wheels, vent hoods or anywhere else heavy soil is found. This fast-acting formula chemically reacts with grease to quickly destroy its bond to itself, making rinsing a breeze. **Super Duty Degreaser** is also exceptional at removing mold stains, black streaks, and will brighten aluminum when used properly. This product is biodegradable and does not contain petroleum solvents.

BRIGHTENERS & DESCALERS

Quick Brite

Quick Brite is a concentrated industrial strength hydrofluoric acid brightener. It is exceptional at brightening aluminum and removing road film. It is also the manufacturer's choice for the chemical brightening of welds and flux removal on fabricated stainless steel items. This product will quickly remove any aluminum oxide (aluminum rust), leaving a fresh aluminum surface for welding, polishing, striping, paint or pre-paint treatments. **Quick Brite** is biodegradable and, when pH neutralized, is safe for disposal in most municipalities.

Quick Brite Citrus

Quick Brite Citrus is the acid brightener of the future. It is a concentrated industrial strength acid brightener that is a safer alternative to traditional aluminum brighteners. This product WILL brighten aluminum and WILL remove road film, just like a traditional aluminum brightener WITHOUT the negative hazards associated with toxic brighteners. This product will quickly remove any aluminum oxide (aluminum rust), leaving a fresh aluminum surface for welding, polishing, striping, paint or pre-paint treatments. **Quick Brite Citrus** is biodegradable and, when pH neutralized, is safe for disposal in most municipalities.

Torch Heavy Duty Acid Descaler

Torch is a heavy-duty acid descaler that is exceptional at cleaning concrete, rust, and heavy scale from your equipment, tools, brick, and car wash walls. **Torch** is buffered for your safety and will not etch glass. It can be used on metal, glass, FRP board, plastic, porcelain, or vinyl (not for use on natural stone such as marble or granite). It is also useful in brightening concrete or stucco to a new, white look.

SPRAY CABINET CLEANERS

Guardian ALUMINUM SAFE SPRAY CABINET CLEANER

Guardian is an aluminum safe spray cabinet cleaner in convenient liquid form designed to remove grease and oil from sensitive industrial parts. **Guardian's** low surface tension makes it the ideal choice for transmission or drivetrain rebuilders who need a cleaner to penetrate around bearings and vanes while it's special buffers help prevent destruction of sensitive aluminum parts. **Guardian** rinses very easily and quickly releases oil for efficient skimming helping to lower sediment tests. **Guardian** contains rust inhibitor to protect your cabinet and scale inhibitors to help reduce hard water scale build-up.

Guardian POWDER ALUMINUM SAFE SPRAY CABINET CLEANER

Guardian P is an aluminum safe spray cabinet cleaner in concentrated powdered form designed to remove grease and oil from sensitive industrial parts. It is unique in that it's operating pH is well below 12, making it safer on sensitive aluminum and safer on your employees. Its low surface tension makes it the ideal choice for transmission or drivetrain rebuilders who need a cleaner to penetrate around bearings and vanes while it's special buffers help prevent destruction of sensitive aluminum parts. **Guardian P** rinses very easily and quickly releases oil for efficient skimming helping to lower sediment tests. It contains rust inhibitor to protect your cabinet and scale inhibitors to help reduce hard water scale build-up.

Attacker HEAVY DUTY SPRAY CABINET CLEANER

Attacker is a heavy-duty safe spray cabinet cleaner in convenient liquid form designed to remove grease and oil from sensitive industrial parts. **Attacker** contains both degreaser and defoamer, making it easy-to-use and very effective on oil, varnish, and grease. **Attacker** rinses very easily and quickly releases oil for efficient skimming helping to lower sediment tests. **Attacker** contains rust inhibitor to protect your cabinet and scale inhibitors to help reduce hard water scale build-up.

Attacker Fe+ IRON ONLY SPRAY CABINET CLEANER

Attacker Fe+ is an extra-heavy duty alkaline stripping agent designed to clean ferrous based metals and alloys. This product will strip many paints, rust, carbon, and heavy grease and oil from parts, leaving a clean iron surface...with no scrubbing! **Attacker Fe+** is available in a super-concentrated powder making it a smart economical choice for labor-intensive cleaning jobs.
